

His Record.

He knows just what his record is for—
For what the office makes it—
They say he went down through the war.
(But went a-sunder!)
He always took his country's part.
Was a soldier's defender,
(He stepped his ears on 'give three cheers
At Lee's surrender!)

PASSED AWAY.

Hon. Joe Holt Died at His Home in Washington on the First Inst.

A Native Breckenridge Countian Who Figured Conspicuously in United States History

DURING PERILOUS TIMES.

Washington, Aug. 1.—Judge Joseph Holt, who was Judge Advocate General of the army, and at one time acted as Secretary of War, died at his residence in this city to-day. His death was due indirectly to a fall sustained a few days ago, but to which he paid little attention.

Judge Joseph Holt was born in this county, January 3, 1807, and received his education at St. Joseph's College, Bardonia, and Centre College, Danville. He began the practice of law at Elizabethtown in 1828. Removing to Louisville in 1832, he was attorney for the Jefferson circuit until his departure for Fort Gibson, Miss., in 1835. Here he speedily attained prominence in his profession, and in a speech made in favor of Richard M. Johnson in the national Democratic convention in 1840 his reputation as an orator was established. He was frequently opposed to the celebrated lawyer, Sergeant S. Prentiss, and was counsel for the city of Vicksburg in the famous suit involving the claims of the heirs of David Vicks to the land along the river front of that city.

Holt returned to Louisville in 1842, afterward took a trip to Europe, and upon his return was appointed Commissioner of Patents by President Buchanan. He became Postmaster General in 1850, and when John B. Floyd withdrew from the Cabinet in 1860 he assumed charge of the War Department. He cooperated with Gen. Scott in providing against hostile demonstrations at the inauguration of Lincoln in 1861 and in a report, afterward published, described the plot made to seize the Capital. While he had been a Douglas Democrat, Judge Holt now gave his earnest support to the Administration and upheld the Union cause everywhere.

He was subsequently made Judge Advocate General of the army by President Lincoln, was one of the Commissioners appointed to investigate claims against the Department of the West, bore a conspicuous part in various court-martial and commissions, and acted as Judge Advocate General at the trial of Booth. Mrs. Surratt and others implicated in the assassination of Lincoln, March 13, 1865, he was brevetted Major General of the United States army for faithful and meritorious services, and December 1, 1875, was retired at his own request. Since that time he has resided in Washington, D. C.

Judge Joe Holt was an uncle of Mrs. W. H. Bowers, of this city, and Col. W. D. Holt, of Holt. He was also closely related to the Sterrett family, Hancock county.

RODELLA.

Miss Eva Roberts is visiting friends near Vine Grove.

Miss Grace Barger, of Montana, is visiting in our midst at present.

Mr. Tom Fackler, of Paynesville, attended church at Vine Grove Sunday.

Miss Sue Payne, of Owensboro, is visiting relatives and friends in this vicinity.

Mr. John Ray is having his house repaired and is getting along nicely with it.

Miss Helen Pollock, of Guston, has returned home after a visit of several weeks.

Miss Eva Roberts entertained quite a jolly little crowd Sunday evening. All report a nice time.

SIROCCO.

Erasmus, son of J. F. Miller, is very low with typhoid fever.

Miss Annie Jones visited her sister, Mrs. Chas. Kirk, of Mauckport, last week.

Mrs. Hulsepe is visiting her son at Tip Top, expects to be gone a month.

Jack Harrington, of Garrett, was buying linen in this vicinity last week.

Mr. D. S. Neufus and family are visiting his daughter, Mrs. Louder Bruner, of Hawesville, this week.

Miss Albert Morgan after a siege of nearly three months, is now thought to be convalescent.

John Royal, of Tennessee, and John Thomas, of Hancock county, spent several days last week with J. K. Wiles and family.

Mrs. S. J. Elder, little son and daughter, of Wolf Creek, are spending this week with her parents, Mr. and Mrs. Wm. Bevelly.

Blanche Blodgett, of near Brandenburg, was in our neighborhood last week looking around for hogs to feed his wheat.

Born to the wife of James King, of Paynesville, the 24th ult., a fine son, weighing 15 pounds. Give him a 'Breckenridge' can you beat it?

Misses Carrie and Katie Buby, of Hardinsburg, Frankie Conway, of Fruit Ridge, Blanche Fryburne, and Mrs. Dr. M. R. Preston, attended the base ball game at Paynesville the 24th ult.

There was no "boast of hereditary" or "pomp of power" about the Preston boys when they done the Fontaine Field up Paynesville. They were playing in a school where good manners is one of the principle branches of study, and like Gray of old they are prone to muse.

The paths of glory lead but to the grave.

Dr. O'Brien was at home and witnessed the game of ball.

They have a hustler in the Preston club to the tune of "Bruner." A jumpy dandy player and a looking fellow.

The free ferryage from Haynes' Landing to Mauckport tempts some of our people to take a glide over the beautiful Ohio every week. The ferryman pilots his barque between the two ports three times a week, Monday, Friday and Saturday.

Mrs. Warnoth who resides between here and Brandenburg, and who has been afflicted for some time with rheumatism, has believed the skill of all local physicians, but relief of her suffering, by the 20th ult., by death's harvest.

A number of physicians met at her home before the body was entombed in the family burying ground on the home place and dissected the stomach, finding the contents entirely gone.

The tract of land on Doe Run Creek containing 300 acres, including the Old Oakland Mill and the Sulphur Well, where so many people gather through the summer season, especially Sunday evenings to view the scenery, were recently in pleasant conversation.

Drink from the health-giving, ever-flowing fountain of sulphur water, has been transferred by Dr. W. D. Coleman & Co. \$1.00 is the price paid for the entire property. A new roof to have been put on the large stone building last week. It now stands a foundation for some new enterprise in the future.

I with Mrs. Barnett, of Evansville, visited the grave of her mother on the old homestead where she, (Mrs. Barnett), was born and reared and where after a long and painful illness, she died.

My father having moved to Mead, near near Lexington when I was quite small. The marble slab that covers the box-like tomb of Mrs. Daniel M. Jones, Mrs. Barnett's mother is broken, the brick incensement having crumbled to the earth. The occasion called for reminiscences from the sanctuary of memories' couch. How vividly the beautiful illustration in poetic style by that gem of authors, Mrs. Felicia Hermans in her "Graves of a Household" rolled up before us.

"And passed this rest, who play'd
Beside the snow green tree?"

The graves of my near relatives are "scattered far and wide." Only two sleep beneath Meade county's sod. Truly, "the old home ain't what it used to be."

The stranger has made it a week of the past.

The article in week before last issue of the News headed, "He was a hustler," reminded me of a joke lighted up in America in Fayette county played on Major Barrett G. Thomas, at that time (10 or 12 years ago), a wealthy race horse owner, previously Sheriff of that county.

The Major had a fine farm, well stocked the best blood, bordering Russell turnpike.

A BAD WRECK
—of the constitution may follow in the track of a shattered system, due to impure blood or inactive liver. Don't run the risk! Discoveries take all the chances. They make a straightforward offer to return your money if they remedy failure to benefit or cause all disorders and affections due to impure blood or inactive liver. The genius of disease, through the blood, the liver is the filter which purifies the germs to enter or exit the system.

After a long and debilitating, weak and your weight below a healthy standard, you are told to "Discoveries." It builds up the body faster than any other medicine.

There wouldn't be any case of Chronic Colic, or any other disease, if Dr. J. C. Williams' \$5.00 reward for an incurable case.

road, six miles north of Lexington. The beautiful meandering stream Elk Horn, completely forms an S and is spanned by a brightly lit bridge just below the state gate enters "his once" beautiful home—stead—alas the reverse that life is heir to, claimed his fortune and others are enjoying the wealth he expended on a model race farm. He had been bothered with agents of one kind and another until he could endure them no longer. He had a nice sign board put up at his gate at the public road bearing the following inscription artistically painted in bold type:

"Nothing but a good race horse wanted. Back agents, lightening rod agent, agents for the sale of patent medicines," went on to enumerate quite a number too numerous to mention here, "are forbidden to enter my premises." One day a day in the shape of lightning rod agent drove along, and after carefully perusing the inscription deliberately opened the gate and drove to the house and hallowed the Major out.

The pompous old gentleman slowly wended his way with a "how dare you" expression on his face to where the agent was sitting on the box, and demanded in stentorian tones: "Didn't you see that notice to agents at the gate?" To which the dare-devil laconically replied: "How you wanted a good race horse."

"Where is it?" inquired the Major.

"On the off side," suggested the agent. The Major stepped around to the off side of the team and "fostered" his eye—twas but a second 'till his whole frame was in convulsions. Peal after peal of laughter rended the air. A walking steed stood before him, the poorest, leanest piece of horse-flesh he had seen since he figured in the civil war. When he had sufficiently recovered from his paroxysm of mirth, he said to the agent "You'll do, come in and take a drink with me."

I feel safe in saying that the agent went away happy, for the Major kept an assortment of the very best and was ways niggardly in dealing it out to those he honored with a seat at his festive board.

Like a ship without a rudder is a man or a woman without health and the necessary strength to perform the ordinary duties of life. While the appetite fails, when debility, and a disordered condition of stomach, liver, kidneys and bowels assail you, take Ayer's Sarsaparilla.

CLIFTON MILLS.

Mr. Henry Cary is sick.

Mrs. John Hatfield is better.

Miss Annie Jordan is on the sick list.

Rev. Frank Quinn, of the seminary, is spending some time with us.

Mrs. Joseph Addison and three children were visiting in Owensboro last week.

Little Dottie Claycomb and brother, Henry, Otto Mercer and Jasper Head spent Saturday and Sunday with Erle and Ernest Head.

Mr. H. C. Haddock had the unpleasant duty of driving an unmanageable horse to church Sunday, it refused to obey the command "get up there."

Miss Blanchie Basham will soon be able to be out. She has typhoid fever. Miss Blanche is employed to teach the Walnut Grove school.

All Hall! such timely words from Preston. Due reverence to the trustee of our public schools! Take warning! Oh! ye teachers! let ye are not respect-fal.

Mr. Joseph Addison has really begun hawking cross ties. His many friends are anxiously watching the result of his scheme. We all know Joe does not relish such work.

The sad news comes to us that Mrs. F. H. Head, the widow of the late Wm. N. Head, is quite sick at her daughter's, Mrs. Cox's, in Corydon, her son, Mr. Henry Head, is also, sick at the same place. Their many friends hope for their recovery.

J. M. Finch has the honor of following more professions than any other man in our midst—First he is our clever P. M. at this place and always gives out our mail with a smiling face that does one good to behold. Second, he has the honor of being the trustee of the city school along with two other gentlemen of our community. We all know Joe does not relish such work.

Death of Olive White.

LOUISVILLE, Ky., August 2, 1894.—After an illness of three weeks, of typhoid fever, Olive White, son of Dr. W. B. White, passed away at 735, West Walnut, in this city. The remains were laid to rest in Cave Hill August last, '94.

Olive was a bright boy, just entering manhood, and was the pride of his father, sister and brother, who are all that is left of a happy family. No more on earth will we see our loved one's genial smile nor hear his voice. His labors here were not finished, his work was undone. He was cut down in the prime of life. But we should not mourn as those without hope. We should look forward to the bright resurrection morning when friend will again meet friend, when father and son, brother and sister, will all be united, and sad partings will be ended by the bright resurrection morning.

All was done that loving hands could do to prolong his stay on this earth, but he who does all things for the best, had a higher calling for him here, and while loved ones mourn here let them be comforted by the thought that Olive is happy on the other shore with loved ones, and is awaiting their coming.

Olive was well-known in your city, his former home, but he is now waiting the highways of heaven, and his bright friends before him have rest.

His beautiful hands were once breaking us home to the city of God.

How shall we wait till we meet thee, How must we yearn for the day, When away from the gloom and the darkness We, too, will be called away.

The writer knowing this noble young man begs to thus briefly lay a simple tribute to his memory. M. G. B. Shaw.

Ayer's Hair Vigor is cleanly, agreeable, beneficial and safe. It is the most elegant and the most economical of toilet preparations. By its use ladies can produce an abundant growth of hair, causing it to become natural in color, lustre, and texture.

HARNED.

Mr. Simmons, of Webster is visiting Peyton Scott.

Geo. Gray began school Monday, Aug. 1, at Germantown.

Miss Maggie Shipley, of Howe's Valley, is visiting Miss Maggie Goodman.

Late Davis has recently built a veranda which is quite an improvement to his house.

Jonas Gray and wife have been in Hudsonville for some time visiting their children.

Quite a number of Harned's courtship circle have been attending church at Mt. Zion this week.

Miss Maggie Goodman has returned from Howe's Valley, where she has been visiting relatives and friends.

John Baker, of West View, the Republican candidate for sheriff, was at town Friday treating the boys.

Jack Belt, of coat, stuck a nail through his shoe and into his foot, and is seriously ill from it. It may prove fatal.

Frank Haynes has been visiting in Bewleyville, and it is said he was flitting with the Tory party, and all was "Victoria."

Arthur Goodman, who is grading the country near in Harlan county, was at home last week and immediately made way for the Fall of Rough.

Holt, Weatherford has been down on the O. & F. R. R. railroad attending to the stave business of Bergen & Meaden, of Louisville, for several days.

C. W. Downs, president of the Bachelor's Society, who are attending the Normal school, left at home Saturday attending to his official business.

County Supt. Andrew Driskel has returned home from Cloverport, where he has been assisting Prof. Logan in the Cloverport Normal, and reports quite a success.

I. B. Payne and Miss Ella Richardson, and Dave and Hettie Meyer and Ed. McGuffin attended a musical entertainment at Mr. Henry Moorhead's Monday night.

Those that attended Quarterly meeting at Mt. Zion were Mr. and Mrs. Harned, Miss Maggie Goodman, Miss Maggie Shipley, Foster Haynes, I. B. Payne, and Steve Gray, Ed. McGuffin and Dave Meyer.

V. B. Burton met uncle Geo. Mercer on fair and honorable terms here Wednesday night and after four hours of eloquent discussion between the two noted political orators, they agreed to let politics rest in peace, while they reported.

There was quite a crowd here Friday for the purpose of organizing and constituting a Baptist church, and of course their work was a success. This is the only church we have in this place and beyond all doubts their entire work will prove to be beneficial and everlasting.

NEW BETHEL.

Weather warm and dry.

Thrashing wheat is the order of the day.

Mr. Horace Squires spent the day at Mr. S. B. Barnes last Monday.

Miss Martha Weston spent part of one day last week with Mr. Richard Adair.

Remarks Regarding Education.

EDRUM NEWS.—Last November I wrote a brief letter to your valuable paper on the subject of education, and again I ask space for a few more remarks on the same subject.

It affords me great pleasure to think and write of educational matters, although I can write but little, and am aware that my remarks are very scattering.

Within the past eight or ten months there has been some excellent work published in your columns on educational matters.

Especially I wish to emphasize the letter from Mr. Gray and the one from Tolpport. Such letters in my estimation are purely inestimable to the progress of the rising generation of the Commonwealth of Kentucky. So I most earnestly appeal to the teachers and others who will write on education, to write more to the columns of good papers and try to encourage the minds of the young people.

A great many say "I would be pleased to write to papers if I only knew what to write." I must admit that I am in about the same condition but the question with me is, will we ever learn to express our thoughts in writing if we always refuse to make an effort in that direction?

So let every teacher, especially in this age, try earnestly to advance educational matters by continually writing to the leading papers of the country, and if the editor should grow tired of publishing our work, I for one am in favor of the teachers of this county turning an honest penny for the benefit of the teachers and the good that every teacher, student, farmer, legislator and every one else in Kentucky be awake on educational matters, and Kentucky in a short time will come to the front with other leading States.

Young readers, if we ever expect to occupy honorable positions in life, we must educate ourselves. Of course, I allude more particularly to book education, but will admit that all education is not necessarily obtainable through the medium of books. However it matters not what occupation we expect to follow, I claim that we cannot follow it pleasantly and successfully without first obtaining a good book education.

Always keeping in view the old adage "If at first you don't succeed, try again" and we will doubtless be successful. I shall expect my ignorance on the subject and this ill composed letter to be sufficient apology for the writing of this uninteresting letter.

M. E. AVITT.

Lodiburg, Ky., July 30, 1894.

LODIBURG.

Rev. Frank Quinn filled his regular appointment at Walnut Grove on last Saturday and Sunday. On Sunday Rev. McDermott, of Louisville, preached for Brother Quinn and he gave us a fine sermon, rather historical, but very interesting and instructive to those who love to learn. Brother McDermott spent several days in the neighborhood. He is in the mission work and we do not think a more suitable person for the work could be found.

On last Sunday evening, my spirits being below par, I concluded to pay the Walnut Grove cemetery a visit to cheer me up a little. In looking over the monuments and tombstones I found that the first person buried there was Hahlab, wife of Nelson Barr, died July 25, 1854.

Just 40 years ago she slept there all alone. But not so now, in these few years she has 155 others with her. In the short time of 40 years there were 154 buried at Walnut Grove. In the few years how many more will there be? God alone knows.

WE HAVE THE JIMMIES.

TARIFF laws are like drinking men. A man in normal health takes a drink of whisky and he is unaccountably stimulated for a time. His blood flows fast and his mind is exceedingly bright and active. As the effects of the liquor begin to wane the reaction comes and he is drifting back to a lower ebullience than he was before he took the drink. He then takes another drink, which revives him once more. If this is continued, the drinks must be larger and more frequent. At last the machinery of his system, a worthy man at being run at such an unnatural rapid rate, or he completely breaks down nervous, or in other words, we have a case of the "jimmies."

The party is this: The business of a country is running on a natural, normal basis. A tariff law is passed—a drink taken, as it were—of the tariff. The business of protected industries receives an unnatural stimulation. All the wheels of commerce turn rapidly for a time, but the reaction is sure to come. Competition becomes great in the protected industries, markets get glutted, and prices go down as low or lower than they were before the tariff was enacted. Then it is that more protection is asked—another drink as it were, is necessary. This they get, and the same unnatural stimulation and consequent reaction is experienced again. It goes on and on in this manner, tariff laws becoming more frequent and higher—bigger and bigger drinks as it were—till the country can stand the tariff no longer, and the crash comes. We call it the "jimmies," but it is no more nor less than the commercial "jim-jams." This country is just now recovering from a true case of tariff "jimmies," and if the physicians in the Congressional Keely Institute at Washington will just administer a few doses of the tariff law in its form, we will soon be on our feet again.

AFTER THE BATTLE.

We have met the enemy and they are ours. We go down in defeat, but we are consoled by the fact that we were fighting for a home under a free man, a man whom it was a pleasure to support. We are defeated, and we make our most graceful bow to the will of the majority. We know the cause is just, but that matter can rest, as far as we are concerned—after the battle is over we always get fighting. We are now, with Mr. Murray, the cause of our cause, the man who of all of us should most feel the sting of defeat, for Hon. A. B. Montgomery with our votes and what influence we may be possible for us to bring to bear in the race, goes on as we said before the primary, it was not that we loved Montgomery less, but that we loved Murray more. A single Democratic ticket is elected next November, that certain will Montgomery carry this county. Breckinridge county democrats never do the baby act, nor do they scratch a ticket. They vote Democrats because they believe in the divine principles of Democracy.

The News is in receipt of a white card attached to which was nearly a yard of black paper. It was from a beautiful young lady in Meade county who was a warm friend of the News. It bore this inscription: "It's not that we love Murray less, but Montgomery more."

The war between China and Japan is already having its effect in this country. Armour has the contract to furnish the Japanese government with half a million pounds of canned corned beef.

BISHOP Watterston and Mr. Sattoli, of the Catholic church say the saloon-keepers must abandon the business or be expelled from the church.

JOHN K. KENDRICK received the nomination for Congress in the First District by a majority of 2,000 over W. J. Stone, the present incumbent.

MEADE COUNTY did her duty. There was some good work done up there and Murray's friends are to be congratulated. They made a noble effort.

HON. JOHN C. LEWIS, of Springfield, will find out about next November that it takes a day to beat Hon. A. B. Montgomery for Congress.

The Pullman Car Company has given it out that they will give employment to no laborer who was engaged in the late railroad strike.

This convention to nominate a candidate for Congress in the Second District meets at Owensboro, Thursday, Aug. 16.

If you come to advertise, your business will fall off. It doesn't matter how well you are known.

"TRENCHES" that were made out at the Louisville Hotel some time ago and put to materials.

It is not like these things it is all more important that they should keep your advertising.

CORRETT and Jackson will not fight. Jackson knows a dangerous thing when he sees it.

Tax tariff question will probably be settled by both houses of Congress to day.

It is now easily explained why Mr. Boyd wants to get out of the saloon business.

The war between China and Japan continues to wage with fury. In three encounters at sea and on land the Chinese have been defeated. The result is, it is not thought, however, that this can last. China can overpower Japan with numbers if nothing else, and the ultimate result of the war is almost certain to be a defeat for Japan.

The only trouble with Dave Murray was that he didn't have votes enough. The Japs are cleaning out the Chinese in every engagement.

The "I told you so's" are just now getting in their work.

Now look out for Ellis in the Second.

Rail for Montgomery!

Deafness Cannot Be Cured By local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co., Toledo, O., and on in this manner, tariff laws becoming more frequent and higher—bigger and bigger drinks as it were—till the country can stand the tariff no longer, and the crash comes. We call it the "jimmies," but it is no more nor less than the commercial "jim-jams."

The News had the pleasure of spending last Sunday with Hon. W. E. Minor and his accomplished wife at their beautiful home in Holt's Bottom. Mr. Minor is a most interesting and genial gentleman, well up in the current events of the day, has his own ideas and views and discusses them in a scholarly and comprehensive manner. In discussing the subject of his candidacy for Commissioner of Agriculture, he said he had not yet made up his mind fully, but that he would advise farmers to let it be.

"I am too busy now with my crop and my Hampshire hogs to even think very much about politics. I have the finest herd of pure bred Hampshire hogs from 100 to 200 pounds each. I get \$6 for them, have sold them as high as \$14."

"The wheat crop," said he, "is unusually good in the bottom. Stewart's machine threshed it last week, doing something over 13,000 bushels which was an average of 17 bushels to the acre. It brought \$22 cents in the Louisville market."

Mr. Minor gave his experience with Missouri rye which he said paid better than wheat. "I had five acres and I put in the garner from that piece of ground 100 bushels of rye. I sold it for \$1.25 per bushel, have sold them as high as \$1.40."

HARDINBURG.

L. H. & W. T. TABLE.

GIVEN START.

Passenger Daily car. Hardinburg. 12:15 p.m.

GIVEN START.

Passenger Daily car. Hardinburg. 7:45 a.m.

GIVEN START.

Mrs. J. A. Witt is visiting near Rota.

Mr. Will Holt has purchased a new bicycle.

Mr. Milton Board has returned from Louisville.

W. W. Vessels left Sunday evening for Owensboro.

Miss Alice Baker is visiting relatives in Hawesville, Ky.

Born to the wife of Coleman E. Haswell, July 31, a girl.

Hardinburg will send a big crowd to Freedom next Sunday.

Mr. D. H. Sever, of Henderson, Ky., was here last Saturday.

Money is close and our prices are lower.—T. C. Lewis & Co.

Mr. W. A. Dalton, Shreve, Ohio county, was here last Saturday.

Miss Lillie Cooper was here Friday to assist in the teacher's examination.

Mrs. Ken Wathen, of Irvington, has been here a few days visiting her mother.

We are not wedded to any plan, we simply sell you the best.—T. C. Lewis & Co.

J. B. Busby and J. T. Roberts came here last Saturday to put in a vote for Murray.

Nothing for nothing but your money's worth every time.—T. C. Lewis & Co.

The friends in this place of Mr. Jule Hardin, will be glad to hear of her speedy recovery.

Mr. Andrew Driskel has purchased Charlie Smith's farm, adjoining Phillip Dusham at \$400.

Mr. S. S. Cralle, representing a Louisville Building and Loan association, has been here a week.

James T. Roberts has been transferred from Owensboro, Ky. to Owensboro, in the revenue service.

The crowd at the primary last Saturday was not large. There had been little or no enthusiasm.

Merit is the trade mark of success, quality the true test of responsiveness.—T. C. Lewis & Co., your jewelers.

Mr. John P. Haswell, of this place, received his first appointment as postmaster from Joseph Holt in 1860.

Mr. James Miller, ex-county superintendent of the penitentiary, was here Friday from a visit to relatives in Missouri.

The Phoenix Line Co. of Stephensport received their property in the hands of a receiver. Their indebtedness is about \$5,000.

The train on the branch was delayed about three hours last Wednesday on account of the trouble being on fire at Sinking creek.

Mr. David Duncan came up last Friday on his bicycle from Cloverport. He made the run in a very short time. He rides a Columbia.

Mr. Al Roberts was here last Saturday. He is now living in York, where he has a good position as general manager of C. L. Appleton & Co's distillery. He came home to vote for Murray.

Sherron & Bro. are doing a good business at Kirk. For the next thirty days they will offer the trade some bargains, in order to work off their present stock. They have a long time to go with a new one for their fall opening. Look out for their big ad in these columns in a short time.

The cake walk given at the residence of the Messrs. Smith last Wednesday night was a big success. The cake was won by Mr. Morris Beard, and Miss Susan Monarch, of Owensboro, as being the most graceful pedestrians on the ground.

The annual church meeting will be held at old Freedom next Sunday. Therefore it has been regarded somewhat as a picnic rather than a religious service. Confectionery stands were erected on the grounds, and traffic in lemonade, ice-cream, candy etc. went on just the same on any other day. This has been stopped. The authorities say that they will not allow anything to be sold there on the Sabbath.

A regular singular point for divorce was filed in the circuit court last week. A woman, Mrs. B., thinking that her former husband, whom she had not heard from for a long time, was dead, married Mr. A. She had not been living with Mr. A. very long until she received a letter from her former, supposed dead husband, asking her to come to him at Cincinnati. She went as requested, and was Mr. A. sued for a divorce. The question is whether Mr. A. ever married, and what the court do about it?

SETTLE YOUR ACCOUNTS.

Owing to the death of our partner, Mr. Messer, we are compelled to ask all who are indebted to the firm of W. H. & H. Messer to come in and settle right away. They will be paid at once, but we are unable to do this. Wheat or produce of any kind taken in payment of accounts or for goods.

For the next sixty days I will sell you dry goods, notions, hats, hardware, boots and shoes at cost for cash or produce. Remember this offer is for only sixty days. Yours Truly, J. A. Witt.

ELECTROPOISE.

Two Months' Rent \$5.00.

To take advantage of this offer you must order before September 1, as this offer will be positively withdrawn on that date. Tell information, address DuBois & Webb, 509 Fourth Avenue, Louisville, Ky.

FREEDOM CHURCH.

Some History of the Origin and Work of That Celebrated Congregation.

Great Meetings Have Been Held There in Years That Are Passed and Gone.

BEGINS AGAIN NEXT SUNDAY.

GARDEN, Ky., Aug. 4th, 1894.—Freedom church is situated about three or four miles North of old hardin and about eight miles East of Hardinburg, the County seat of Breckinridge county. A more beautiful site for a church would be hard to find, as the pretty flat on which it stands is neatly surrounded with large oaks, which keep cool to a great extent the blasts in winter, and also furnish plenty of cool shade during the summer.

In about the year 1825, Cumberland Presbyterianism was first preached in this vicinity, at what was known then as the "Baptist" school of Breckinridge county. The people worshipped in this school house, and under a bush arbor until the year 1828, when it was decided by the church to build a new church to Christ and to the Cumberland Presbyterian doctrine, that a church house was needed. They, together with the Baptist of the community, built a substantial log house, with the understanding that it was free for people of all denominations that community to worship in, therefore the title Freedom church.

For some unknown reason (supposed to be an oversight) the date of the charter members organization was not recorded. It is believed that it will interest some who may read this sketch, we will give the names of the charter members as they stand recorded on the old church books. They are as follows: William Macey, Sterrett Beard, Geo. Sinclair, Joel Jared, Jane Hall, W. M. S. Jones, Sarah Sinclair, Little Berry Dowell, Nancy Mill, Polly Jared, Mariah Fisher, Geo. C. McDowell. The people worshipped in this school house, and under a bush arbor until the year 1828, when it was decided by the church to build a new church to Christ and to the Cumberland Presbyterian doctrine, that a church house was needed. They, together with the Baptist of the community, built a substantial log house, with the understanding that it was free for people of all denominations that community to worship in, therefore the title Freedom church.

The names of the pastors and some of the evangelists who have assisted in the service since 1850 are as follows: James C. McKnight, Ward St. Clair, Harried, Morris, Wheatley, Kimbrell, Sister Woolley, Layman and H. C. Kook, who is the present pastor.

The names of the pastors and some of the evangelists who have assisted in the service since 1850 are as follows: James C. McKnight, Ward St. Clair, Harried, Morris, Wheatley, Kimbrell, Sister Woolley, Layman and H. C. Kook, who is the present pastor.

people would be seeking the Lord day and night, and there would be some kind of public service, more than half of the 24 hours during the same. The names of the pastors and some the preachers, who assisted those protracted meetings, previous to 1870, are as follows: (as we do not know a great many of their initials we will only give their surnames): Shannon, Venny, Calhoun, Neal, Long, Mansfield, Harris, Chapman, Hunter, Shreve, of the W. Wash, Newman, Barton and A. F. Dallasman.

This brings us up to 1869 or 1870 at which time it is decided that the old log house and shed, are not sufficient for the needs of the day. During one of the above mentioned years, a frame structure 30x50 feet with 12 or 14 feet ceiling, took the place of the former mentioned buildings. Several logs of the old home are there yet, and they show the skill of the broad axe man of that day to be the equal, if not superior to any of the present. One year ago only, they served as seats for out door service, when it was thought best to have two sermons at the same time. Two large blocks have been erected with steps leading to the benefit of the ladies, in getting off and on their homes. Stubs of the large sand stone chimneys are still standing. The house of 1869 or 1870 is the home of to-day. It has recently been repaired and otherwise repaired, the grave yard cleaned off and fence around some graves, and oh how glad are the people to Freedom have been worked, and the people are praying that with the beginning of the Second Sabbath in August, 1894, will begin one of the best meetings that have been held for years. Brethren and sisters, elsewhere, let us ask you to join in prayer, that there may be a mighty impregnating of precious souls to Freedom before the beginning of a protracted meeting. It is the day when the sacrament of the Lord's Supper is administered, and all who know the doctrine of Cumberland Presbyterianism, at this point, know that they draw only the same as Christ Himself drew; that is, let a man examine himself, and so eat and drink, who have prepared us.

On this date it is that Freedom congregation offers every Christian an opportunity to testify to the death of the old man of sin, and to receive the Holy Spirit, to go on in this life which we profess to live, when so many of our brethren and sisters from other communities come and join in these services as one, and as one, who have prepared us.

The names of the pastors and some of the evangelists who have assisted in the service since 1850 are as follows: James C. McKnight, Ward St. Clair, Harried, Morris, Wheatley, Kimbrell, Sister Woolley, Layman and H. C. Kook, who is the present pastor.

BRECKENRIDGE NEWS.

WEDNESDAY, AUGUST 8, 1894.

THE BROOK.

I looked in the brook and saw a face.
High, but not the years of it.
There were ripples and willows in that place.
And they clung at the brook as the brook ran.
And the brook ran in its own sweet way.
As a child chafes in his running play.
And as I heard it I heard it say:
"Hush!"

To the rustling sea.
That is the brook with the flame of the morning sky.
I look in the brook and see a face.
High, but not the years of it.
The ripples are dead in the old time place.
And the willows I follow in the same way.
And the brook it seems to me to play.
Nectarously now and not to play.
So, come with me, come with me.
To the rustling sea.

That is the brook with the flame of the evening sky.
High, but not the years of it.
The ripples are dead in the old time place.
And the willows I follow in the same way.
And the brook it seems to me to play.
Nectarously now and not to play.
So, come with me, come with me.
To the rustling sea.

A SUBTERRANEAN OCEAN.

It is believed in Nebraska, Kansas and Indian Territory.

The best scientists of the land favor the opinion that Nebraska, Kansas and part of Indian Territory are situated over an immense underground lake or sea. It is a well known fact that in several places in Kansas whole sections of rock have suddenly disappeared, leaving only fatuous holes to mark the spot where they were once situated. Proof that there is something peculiar with the foundation of the section of the country mentioned may be found in the celebrated "side wells" of Polk, Butler and Coffey counties in Nebraska. Polk county is best provided with curious wells, having between a dozen and 20 which rock and ebb and flow with an unusual tide. The roaring of these remarkable eruptions cannot be called natural wonders, because they are the work of man, at least as far as excavation is concerned, but caused by the inhalation and exhalation of immense quantities of air. These are regular and uniform in flow, the air will rush out with a loud, hissing sound, and again an equal space of time in which it seems to be drawn back into the earth. The period of this ebb and flow does not seem to depend upon either the season or the state of the weather, but is thought to have some mysterious connection with the high and low tides of the Atlantic and Pacific oceans. A meteorologist of national reputation, who sought to fathom the mystery of the "Platte river tide," gave it as his opinion that the "side wells" phenomenon was in some way connected with the prevailing direction of the wind, blowing strongest in time of west or west-south-west breezes. The farmers in the three counties mentioned as being best supplied with these tide regulars, are expelling wells believe that the water supply is connected with the tide of the tide. All the wells in the counties of Polk, Butler and Coffey are of about the same depth, those of Coffey being deeper, but all extending to the same stratum having the same general characteristics.—St. Louis Republic.

MODERN SURGERY.

The Latest Part That Absolute Cleanliness Flies In Its Operations.

There are three locations, as we speak, the absolute cleanliness of which is most to be ascertained before the operation is justified in proceeding. In the first place, the surgeon's hands, his instruments and the integument covering the part of the patient's body at which the operation is about to be performed. How is the requisite cleanliness in each case secured? So far as the surgeon is concerned, by profuse scrubbing with a saltwater or soap and hot water, followed by a thorough dressing of the skin with an antiseptic solution, as that of 1 to 10,000 of peroxide of mercury. So far as the instruments are concerned, they are boiled in water, or by passing them through the flame of a spirit lamp, and then, when the operation is ready to begin, by dipping them in a weak solution of carbolic acid. Lastly, so far as the patient's integument is concerned, by washing the part first thoroughly with soap and water, having previously shaved it, and then dressing it with a peroxide of mercury solution, or, if the part be greasy, removing all the greasy material by rubbing it with ether.

Without going into further details one can see the cardinal principle of modern surgery is to keep the patient as clean as possible. The result of course each wound which is thus treated is made under aseptic conditions. The result of course each wound which is thus treated is made under aseptic conditions. The result of course each wound which is thus treated is made under aseptic conditions.

The temperature and the pulse of the patient are taken as signs of disturbance, that should be expedient to be ascertained. The temperature and the pulse of the patient are taken as signs of disturbance, that should be expedient to be ascertained. The temperature and the pulse of the patient are taken as signs of disturbance, that should be expedient to be ascertained.

It is a well known fact that in several places in Kansas whole sections of rock have suddenly disappeared, leaving only fatuous holes to mark the spot where they were once situated. Proof that there is something peculiar with the foundation of the section of the country mentioned may be found in the celebrated "side wells" of Polk, Butler and Coffey counties in Nebraska.

THE KIND OF
FIELD AND GARDEN
CUNEOBOS FOR CATTLE FOOD.

Optimal as Expressed by Several Authorities on This Remarkable Subject.

Professor Stewart, Wolf and others give the assurance that there is nutrition in cornmeal, but a writer to The Country Gentleman contends that while this is true, it doesn't pay to feed cornmeal. Here is his argument:
The chemists in their laboratories may be able to extract the nutrients from corn, for they have the command of implements and acids that will dissolve hard substances, which the gastric juice in cattle's stomachs is unable to accomplish. Take a cob and try whittling it with a knife; you will find that on each side of the cobs where the kernels stand, extending to the pith, it is full of small, thin plates hard as a hen's egg. These plates compose the greater portion of the cob, and no mill ever ground them fine, and no animal's stomach ever digested them. Examine the dust of animals fed on cornmeal, and you will see these hard sharp plates as there, still as hard and sharp as ever. It is not easy to believe that such tough, stubborn substances will be broken down in the stomachs of the animals without producing irritation, if not laceration.

Professor Sanborn says, "Close observation of fully ground cornmeal, composed of the new corn, is of little value, and that the coarse cornmeal has very little value." He is speaking of the new corn, which is a hard and brittle corn, and its value in his opinion depends almost entirely on its fineness. It is well known that the fall and winter when farmers wish to feed the most corn, and generally have to begin the new corn, there is no moisture in the corn that it is utterly impossible for any mill to grind them fine.

About 40 years ago a cornmeal craze broke out in northern Pennsylvania, where the proprietor of the mill at Douglass incurred considerable expense to put in a new waterwheel and the machinery necessary for reducing corn in the ear to meal, and nearly all the mills in the country followed his example. For awhile there was a good business grinding corn, but gradually the cornmeal business fell off, and in three or four years the mills were closed. What was the cause of this surprising downfall in the popularity of cornmeal? For awhile there was a good business grinding corn, but gradually the cornmeal business fell off, and in three or four years the mills were closed.

Professor Stewart tells the Connecticut Experiment Station, that his analysis that corn has a value of 44 cents per 100 pounds, or slightly more than that of wheat, and that their cattle their choice between corn and cornmeal to see which they preferred. The result was that they preferred corn to cornmeal. The result was that they preferred corn to cornmeal. The result was that they preferred corn to cornmeal.

How the French Patent Pottery. The best farthing food, as used in France, consists of barley meal or maize flour, mixed with water, and sweetened with milk. As this much is given as the hens can possibly eat, the French use it in the morning, but not before the French make this porridge so thick that it is a dough, and they eat it with a knife and fork, forcing these pills down, but the end of a penholder or pencil wrapped round with cloth will do the work. The French use it in the morning, but not before the French make this porridge so thick that it is a dough, and they eat it with a knife and fork, forcing these pills down, but the end of a penholder or pencil wrapped round with cloth will do the work.

Special care is taken to give the birds a good bath at least 12 hours before killing, so that the bowels may be empty at the time of dressing, whereby certain effects which favor rapid decomposition are avoided. The fowls are also not plucked immediately, as by so doing while the blood is still fluid the blood vessels at the root of each feather become gorged, and the fowls get a spotted look, says the Country Gentleman.

Where Women Commence. An Arab—naming a town dweller: In an engine some the town dweller is an Arab—loves first and all his horses. No man would rectify the old song affecting he will lavish upon him. Next he loves his fowls. This, possibly speaking, ought to be a six fold increase in the number of a flock of a matchlock, which would kill any man but an Arab.

A Campaign Letter. A relic of the presidential campaign of 1892, consisting of a copper coin, but actually in Algeria or Tunis, when he lives near a city, it is more apt to be a medal in honor of the hero of the battle of the Marston. The coin is a medal in honor of the hero of the battle of the Marston. The coin is a medal in honor of the hero of the battle of the Marston.

It is a well known fact that in several places in Kansas whole sections of rock have suddenly disappeared, leaving only fatuous holes to mark the spot where they were once situated. Proof that there is something peculiar with the foundation of the section of the country mentioned may be found in the celebrated "side wells" of Polk, Butler and Coffey counties in Nebraska.

GRIEVE'S MANNERS WERE BAD.

But They Were Fought For His Fine Art or Dinner Speech.

The genial philosopher, Horace Greeley, went to New Orleans after the south had taken him to her heart in a great recognition of his action in going on the Jeff Davis ball bond, and the people were anxious to show him every attention.

A dinner seemed to be the proper thing, and the markets of New Orleans, which were then in the height of the season, were ransacked to make the occasion as suitable for its guests as the distinction of the guests warranted. Judge Walker, the veteran editor of the Plaquemine, presided. He was a great gourmet, and after the manner of gourmets wished none of the fine points of the dinner to be lost to the guests for lack of comment.

"Mr. Greeley," said he, "these oysters are the best that come to our market, and we think they will be found of Norfolk. I observe that you are not eating them."

"Well, sir," replied Greeley, "the truth is I never could stand shellfish. And he passed.

Then came some delicious green turtle soup, which Judge Walker explained was prepared from the finest fat turtle the Florida bays could supply. "No doubt, no doubt," was the reply in Greeley's peculiar whine, "but could I eat any animal which was an abomination to me."

The pompano, imperial fish that it is, and fresh from the gulf, was served to the same objection, despite Judge Walker's entreaty, and that, too, was passed. Then came a delicious shrimp salad, which Judge Walker explained was prepared from the finest fat shrimp the Florida bays could supply. "No doubt, no doubt," was the reply in Greeley's peculiar whine, "but could I eat any animal which was an abomination to me."

The judge gave up in despair. The only thing in all the array of delicacies which had been provided which Judge Greeley would eat was bread, potatoes and cauliflower, and he feared that he might be overloading his stomach at that. But when it came to the speaking, although he had drunk nothing but cold water, he spoke so long and loud with a fever, eloquence and tenderness that nobody at the table could ever forget it.—Chicago Lake.

INVESTIGATING AN ACCIDENT.

The Railroad Engineer Got Out of Trouble.

Superintendent Warren of the Eastern Illinois railway was telling the other evening of a curious accident which had happened to him on his way to work.

He was running a freight train, and on one portion of his division there was a stop hill. His orders were to never permit his train to stop on a hill faster than 15 miles an hour, but it was general belief that whenever he had a safe opportunity he would stop at a grade just as fast as the wheels would turn.

One day he did go down the hill at the rate of 20 miles an hour, and the fact that the entire train was on the track at the bottom, and there were box cars piled up high. An investigation was made, and it was found that the engineer had been told that the hill was not faster than 15 miles an hour, but that just before reaching the bottom he had been told that the hill was not faster than 15 miles an hour, but that just before reaching the bottom he had been told that the hill was not faster than 15 miles an hour.

"But," said the superintendent, "we have a man here, a farmer, who was on the hillside that day when you came down. He stood at the edge of a clearing in the woods, and he saw the train come down, and he saw that the train was not faster than 15 miles an hour, but that just before reaching the bottom he had been told that the hill was not faster than 15 miles an hour.

The engineer never hesitated. "I know the man. I saw him today after the accident, and he told me the story to me, only there was a little more to it. What was that?"

"Why, he told me that it was the first time that he had ever seen a train on a hill, and he didn't think it would be a very good judge of speed."

CAGE BAE AS A FARM CROP.

It is Costly to Grow, but Pays Under Favorable Conditions.

Owing to its being a nitrogen crop, cabbage is a rather costly crop to grow. It produces when well fertilized a greater amount of nitrogen giving nitrogen than farmers can grow in any other way. There are times when the nitrogen in the soil is beyond the amount in the soil. Then is when the crop of late cabbages comes into market. Yet the cabbage growers will be in their crop as to keep it through the winter, it can usually be depended upon to bring high prices in the spring.

By growing early and late cabbage a succession of this vegetable can be had all through the year. The very early cabbage needs to be started in the fall and kept slowly growing through the winter for the coldest part of the year. In places where severe freezing is not probable the plants are left out of the ground and covered so as to protect them. In spring they are set out in soil made as rich as possible with well rotted manure. Less manure will do some nitrate of soda with really available nitrogen can be obtained. A person of soil fall starts plants are forced in the hotbed and are ready to sell by the time the dormant period of the plants has passed. The plants are fresh early cabbages are sold very early, but they bring a high price and the farmers are in a position to make a large development of available nitrogen, especially in the spring. The late July, when air and ground are warm. But the American Cultivator thinks that a dressing of nitrate of soda will pay, even on late cabbage, in making more rapid and larger growth. It says that the fact that farmers have a few young plants are grown for late October or setting. This is made in April or May, and the plants are ready to sell by the time the dormant period of the plants has passed. The plants are fresh early cabbages are sold very early, but they bring a high price and the farmers are in a position to make a large development of available nitrogen, especially in the spring. The late July, when air and ground are warm. But the American Cultivator thinks that a dressing of nitrate of soda will pay, even on late cabbage, in making more rapid and larger growth. It says that the fact that farmers have a few young plants are grown for late October or setting. This is made in April or May, and the plants are ready to sell by the time the dormant period of the plants has passed. The plants are fresh early cabbages are sold very early, but they bring a high price and the farmers are in a position to make a large development of available nitrogen, especially in the spring. The late July, when air and ground are warm. But the American Cultivator thinks that a dressing of nitrate of soda will pay, even on late cabbage, in making more rapid and larger growth. #### LOCAL NEWS.

Fresh cakes to-day—Sulzer's.

For milk to go to the City Bakery.

Born, to the wife of Gus Brown, Aug. 31, a fine boy.

There's money in it, sure! trading with Sulzer's.

Nail the bargain quick at Sulzer's hardware sale.

Look out for the big picnic to be given at Holt, August 11.

Fresh crackers and cakes just received at the City Bakery.

Try some of our new fresh cakes, just in to-day—Sulzer's.

Keep the ball rolling and buy a croquet set at Sulzer's.

Dollar coin. If you are building get Sulzer's prices on hardware.

Wanted regular and transient boarders Mrs. Molly Jolly, the old Bachelor House.

The picnic at Holt next Saturday, the 11th, last, promises to be a grand affair.

If Johnnie gets a new gun this season it would be well for him to consult with Sulzer's.

A drawing card—the fine tea which Sulzer's make a specialty of keeping always on hand.

Mrs. Henry Pool, colored, died at her home in this city, of consumption, Monday, the 6th inst.

Judge Gregory issued thirty warrants last Monday for the owners of dogs who had not paid the tax on them.

Go to Minor's Groves next Saturday and spend a pleasant day with your friends. The picnic there will be a good one.

Sulzer's, the shoe man, is a firm believer in woman's rights and woman's letters. He has some very stylish ones for \$2 a pair.

The City Council had a late meeting Monday night. They simply passed about \$100 worth of just claims and adjourned.

Mrs. Molly Jolly has moved into the Bachelor House, where she will keep her hotel in connection with her mother, Mrs. R. B. Cox, of Union Star.

Why suffer with decayed teeth? Dr. L. W. German, dentist, of Louisville, will be in Cloverport, Friday, Aug. 10th. He will be located as formerly with Dr. Watkins. Prices to suit the times.

It is with pleasure that we note the fact that Mr. S. G. Gettemann, brother of Mr. Geo. Gettemann of this city, was nominated for Auditor by the Republicans of Harrison county, Indiana, last Saturday.

Mr. Leon McCracken has sold his interest in the furniture and hardware business at Leitchfield and has accepted a position as traveling salesman with the wholesale grocery establishment of Cable Bros. & Co., of Louisville. Mr. McCracken was in this city last week on his first trip. He is a clever gentleman, a good man and we congratulate Cable Bros. & Co. on obtaining so efficient a gentleman to represent their interests in this section.

#### Death of John S. Lightfoot.

Mr. John S. Lightfoot, the venerable father of ex-Mayor C. E. Lightfoot, died in Rockport, Ind. last Sunday night. He went down there some time ago to visit his daughter, Mrs. Mary Gilbert, and it was at her home that he breathed his last. He was 75 years of age, and had been in feeble health for quite a while, his death being caused by a general breaking down of the system. His remains were brought to this city and interred in the City Cemetery yesterday.

#### Stand By The Party.

SPRINGFIELD, Ky., August 6, 1894.—Breckenridge News.—Complete returns give Bullitt county to Mr. Murray by three majorities. This poll was almost solid for Murray. Montgomery carried Zentgraf in Belmont, 1, Pitts in Boone, 2, Leaches 30, Mt. Washington 31, Clermont 32.

Murray carried Johnson Junction and Shepherdsville. Everything was quiet. We promised Bullitt to Murray, and while the majority was small it was a majority to be proud of. Right here under shadowed by Montgomery's loss and hard by the outer walls of Ben Johnson's stronghold. Somebody was too sanguine; some one did too much pre-empting. We lost a good fight, but we gained. Montgomery is the nominee. Let us rally around the old flag and press forward. Trusting that brave, courteous, honest Dave Murray will go to Congress, begging the Democracy to vote for Montgomery, and thanking the News for many favors.

I am sympathetically yours,  
 J. B. BARRAGE.

#### PERSONAL.

Ernest Gregory went to Hartford last Thursday.

Mrs. London has moved his family to Henderson.

Mrs. J. D. Brasher, of Owensboro, is in the city.

Mrs. C. M. Bullitt returned to Louisville, Monday.

Mrs. John Hardin has been very ill for some time.

Mrs. Wood Wortham, of Leitchfield, was in the city Monday.

Geo. Gettemann went to Henderson on business, Monday.

H. Winkler and son, Ruff, of Kirks, were in the city Monday.

George Gettemann attended church in Owensboro Sunday.

Joe H. Miller, Sample, was in the city Saturday and Sunday.

Ollie Toney spent Sunday with Jordan Morris, at Bhopurport.

Mrs. Dr. Hal, of Charleston, is visiting her parents, Mr. and Mrs. Alex Boyd.

#### Snake! Snake!!

A Desperate Fight Occurs With a Reptile in a Cloverport Saloon.

Last Monday afternoon "Fatty" Reid, engineer on the Texas road and "Bill" Clemens, cooper, both at the machine shops, were in Boyd's saloon, one of our finest saloons, situated in the very heart of the city. The two gentlemen were leaning on the bar discussing the result of the primary with Geo. Boyd, the bartender. All at once Boyd threw up his hands, his eyes popped out of his head, and they were fixed with a cold stare at the floor toward the rear of the building. Reid and Clemens turned their faces in the direction that Boyd's eyes indicated and they saw a sight that almost made their blood stand still. What appeared to be a large copperhead snake was leisurely crawling toward the rear of the saloon. All three of the men were completely paralyzed. They knew that they were temperate, sober men, and that the saloon was noted for the purity of its goods sold at its bar. Still they could hardly trust their senses, and each was afraid to ask the other if he saw anything. In fact they had a faint idea that they "had 'em." As Reid could stand it no longer, and snake or no snake, he was not going to let that wicked-looking reptile come any closer without a fight, so he jumped at it with both feet and went to stamping in regular "jim-jam" fashion. Clemens and Boyd joined in the fray and such another snake battle was never witnessed in any saloon on earth before. As the snake writhed and slashed around their feet and legs, changing its position so rapidly, it actually looked like it was a dozen or more snakes, and the impression was fast becoming fixed in the minds of the gentlemen that they "had 'em" sure enough. Finally Reid's head "brushed the serpent's head" and the fight was over. The connection brought Geo. W. Short, the saloon druggist, next door into the room, and not until he had viewed the corpse and told the gentlemen that it was actually a copperhead snake, were their minds relieved. Fortunately no body was bitten, but Mr. Clemens was cut a second-dollar silk umbrella which he had smashed up in the fray. The snake was a very large one of the kind. It had probably harbored in the back yard among boxes and old lumber all summer, and getting a traveling sales on it Monday afternoon, it had entered the building at the back door, probably thinking it was Sunday, and was making its way up front.

#### DEFEATED.

Murray Could Not Stem the Tide, but He Goes Down With Colors Flying.

The primary election is over, and Murray is defeated. He fought a brave and noble fight, but the powers were against him. The fight in all parts of the district, excepting Breckenridge county, was hot, and the battle was bitter. In the towns, however, while the Murray men were enthusiastic, there was not enough opposition to make it interesting. A good vote was polled, and he has been visiting friends in Rockport, Owensboro and Searlesville, returned home last week.

Mr. and Mrs. Will Gibson, of Louisville, were the guests of his parents, Mr. and Mrs. Geo. Gibson Saturday and Sunday.

Mr. W. G. Street, Washington correspondent of the Dallas News, was in the city Monday the guest of his sister, Mrs. W. H. Downer.

Mr. Michael Callahan, a young boy, of Louisville, is here training on the Bullitt. He will remain three or four weeks.

Mrs. T. J. Minary, of Louisville, who is visiting her parents, Mr. and Mrs. James G. Stephens, at Holt, was in the city yesterday shopping.

#### GOOD DEMOCRAT.

Mr. Murray Is Too Great a Man To Be Guilty of Doing the Baby Act.

EDITOR NEWS.—Though not officially determined, it is evident that I have been defeated in my race for the nomination for Congress by the Democratic party in the 4th District. I take this method of expressing my gratitude to my friends throughout the District for their support, and in numerous instances, personal devotion.

Many I ask all who supported me to actively rally to the support of our party and its representative in the race for Congress, Mr. Montgomery. I am so earnestly of the belief that the preservation of the rights of the people and personal devotion.

Many I ask all who supported me to actively rally to the support of our party and its representative in the race for Congress, Mr. Montgomery. I am so earnestly of the belief that the preservation of the rights of the people and personal devotion.
